

# Program: Genome Replication Day

## INSTITUT DE GENETIQUE HUMAINE

### GENOPOLYS

9 am to 9:15 am:

Monsef Benkirane Former IGH director “Introduction to the meeting”

Word by Giacomo Cavalli Former IGH director

Word by Philippe Pasero IGH director

9:15 am to 9:20 am: Giacomo Cavalli: “Introduction of the first Session”

9:20 am to 10 am: Pr. Ron Laskey

**The enigmatic origins of the origin enigma**

10 am to 10:40 am: Pr. Maria Elena Torres-Padilla

**Emergence and regulation of replication timing during mammalian development**

10:40 am to 11:20 am: Pr. Ichiro Hiratani

**Unraveling the developmental dynamics of genome architecture through single-cell DNA replication profiling**

11:20 am to 12 am: Dr Marcel Méchali

Lunch break 12pm to 2pm

2 pm: Bernard de Massy: “Introduction of 2nd session”

2:05 pm to 2:45 pm: Dr. Geneviève Almouzni

**Histone variants and their partners shaping chromatin and cell fate**

2:45 pm to 3:25 pm: Pr. Amanda Fisher

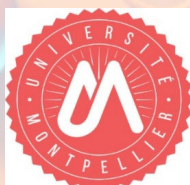

**Cellular memory and mitosis**

3:25 pm to 4:25pm: Coffee Break

4:25 pm to 5:05pm: Pr. Bruce Stillman

**Biochemical and evolutionary comparisons of origin specification**

5:10 pm to 5:40 pm: SURPRISE

FONDATION  
BETTENCOURT  
SCHUELLER
