

# Seminar series

Department of Molecular bases of Human Diseases  
IGH Montpellier  
GénoPolys Amphitheatre

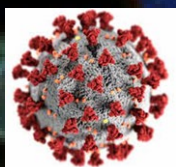

**02 April 2024, 11H30**

**Jeremy LUBAN, University of Massachusetts  
Chan Medical School (USA)**

*“Innate immunity against HIV”*

Contact: [monsef.benkirane@igh.cnrs.fr](mailto:monsef.benkirane@igh.cnrs.fr)

**26 Avril 2024, 10h00**

**Sophie ZINN, CEA, Paris**

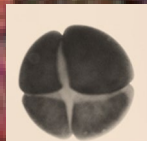

*“Role of phosphorylation of BRCA2 and PolTheta in  
Double-Strand Break repair and mitosis”*

**11h00**

**Manuel STUCKI, University of Zurich, Switzerland**

*“Mechanisms of genome stability maintenance  
during cell division”*

Contact: [Jihane.basbous@igh.cnrs.fr](mailto:Jihane.basbous@igh.cnrs.fr)

**11 October 2024, 11h30**

**Kristijan RAMADAN, University of Oxford, UK**

*“Selective autophagy of DNA lesions promotes  
DNA repair and cell survival”*
